Notes by W9WI

Bad propagation reared its ugly head in this year's competition. (aurorally-propagated signals were heard on 6 meters around sunset, and some aurora QSOs were made on 10 meters. That's unusual this far south!) Entries were down slightly, as were average scores, though the drop was not drastic. The multi-op record was shattered by this year's K4TCG operation, and Jeff, NY4N beat the old mobile record by about 2,000 points.
