### Notes by W9WI

Competition was fierce in the 1998 Tennessee QSO Party, and there was no change going into 1999. The top three places in the single-operator category were separated by only 2.5%, and the top two in the multiple-operator category by only 5.3%. KQ6ES's out-of-state record from 1998 couldn't be broken, but K4BAI came pretty close. KG4BIG, who had been licensed for only 9 months, turned in the second-place out-of-state score. We have also received our first entries from outside North America, and there were three of them. This contest is tough for DX operators, and all three European scores represent excellent effort!
