

2025 Tennessee QSO Party Results

Tennessee Operations by County Red-Fixed Only, Green-Mobile/Rover, Blue-Fixed+Mobile (White > No Reported Operations)

The 2025 Tennessee QSO Party is now behind us! Contacts were recorded with 92 of our 95 counties so we're getting close to completing a sweep. The challenge is now official for Rovers/Mobiles next year - let's get those remaining 3 in the logs!

Les, VE3NNT led the pack with an outstanding total of 76 counties followed closely by Laci, OM2VL, with 74 and Freddie, AA3R, with 72. The top mobile station once again was Jim, AD4EB, partnering with Kirk, K4RO, - 1,784 Qs in 10 hours! Also of note was Andrew, AA5JF, who came from Georgia and operated in our relatively new ROVER category snagging 688 Qs. Nice going guys!

Our log count was down a bit from last year, 316 vs 347, but overall QSO count was up over 700 to 34,080. Steve, W9SN, struck gold again and set yet another SOLPFixedCW all time high score of 478,224, topping last year's record by almost 10,000 points. Don, N4ZZ, set a new SOHPFixedCW record at 361,446 and Andrew, AA5JF, set a new SOLRoverMixed target at 260,436. Last, but certainly not least, Laci, OM2VL, has set the new standard for Out-of-State records at 133,268! Congratulation to all.

New for this year, the K4TCG callsign emanated from WV4P's superstation in Hardin county. Not only did they mix remote and local ops but they also were testing the new TTS (Text to Speech) facility in N1MM. If you worked them on phone you talked to Amy! Even though they had a minor glitch on CW, they almost established a new record. Nice work Ron and crew!

This year's plaque winners are once again in the spotlight. Receiving one of Mark's (K0EJ) hand crafted plaques has to be the highlight of the year for these deserving hams! Congratulations and keep up the good work.

This Year's Plaque Winners!

Check Logs: F4EUG, W1LTC, W1DNS

| K4KYN | Had a great experience and eclipsed my previous best in the TQP. Was surprised how clear 40M stayed for most of the day. Lots of great contacts with old friends and I hope I also made a few new friends along the way. |
|--------------|---|
| WU8T | The bands were the pits here. 10 and 15 m were OK, but 20 m was very weak. I think I worked AD4EB once, but who knows if I miscopied his response. Tnx for the QSOs I had, 73 and hope next year's TNQP is better. |
| VE3NNT | The rovers really make this contest interesting. |
| KR2AA | The party would be really quiet without AD4EB !!! Thank you Jim!!! |
| KØRC | From my QTH in central Minnesota, this was the Tennessee ESP QSO Party today! The logger says I invested three and a half hours, but I am sure that is on the low side. There were certainly enough stations active, but the propagation was just not there for me. The low bands did pick up in the evening, which helped populate my log. |
| K1IMI | Pretty poor propagation until late afternoon and eveningeven then it wasn't anything to brag about. AD4EB always hard to work, but we persisted. AC6ZM was a bit easier, but nothing to rave about! Home/fixed stations generally were loud and clear and much easier to work. All in all, it was hard work, but rewarding! 73 from Bert & Jim |
| K4TCG(@NJ4P) | To close to CQ WW RTTY to reconfigure station M/M so we just planned a M/2 But then a network issue caught too late took out the Inband station on CW so we left a bit on the table score wise, but I think we made the bonus station pretty easy to work :o) Great group of ops, great food, big fun! This was the first contest for Amy and she really seemed to enjoy it. |
| KA6BIM | Pretty good conditions this year. Lots of stations to chase. I found 2 of the 6 counties I still need, leaving 4 left to find. I ended up with about 50% increase over last year. This contest goes late enough that I can get a little 40 and 80 meter action. Thanks for the QSO's |
| K4BAI | What a great QSO party this year! Logs of activity, CW and SSB. Mobiles quickly moving from county to county. Didn't get started until after the Atlanta Falcons lost a close football game on TV. Thanks for all QSOs. 73, John, K4BAI |

AA5JF

Rover category--operated only while stationary.

What a fun way to spend a Sunday, in the mountain counties of eastern TN. Went to 9 counties, with three locations qualifying as countyline operations. First time really trying to use antennas on the car to make State QSO party contacts -- in GA and SC parties this category requires truly portable antennas, which I only used at the first location. The mobile setup basically worked, but unfortunately spent precious time learning which antenna goes where and how, and I never was able to change bands quickly, which had been my intention. But when I finally figured out my mobile 80M antenna (with 90 minutes left to go), it turned out to work pretty well. Wish I had had it 2 hours earlier.

Beautiful Sunday weather. My favorite spot was the SULL/JOHN county line, on the Appalachian Trail, trying to focus on the bands, while distracted by the unending numbers of motorcycle riders racing the mountain curves of "The Snake" on US-421.

AD4EB

This was the 13th time that an AD4EB mobile team has run in the TNQP. The team was comprised of Kirk, K4RO, and Jim, AD4EB. Don, N4ZZ, did not make it this year, and Melody was given a driving rest in preparation of the upcoming TXQP in 2 weeks. We drove thru 25 counties over the 381 mile loop in perfect weather, and everything went off without a hitch. The pileups were tough at times, but so much fun.

Our goal was to beat last year's score, but we came up a hair short. Last year we had 8 more QSOs (1,793) and 2 more mults (154). Guess we will just have to try harder next year. Band conditions were not bad, but certainly could have been better especially on 15 and 10m. It seemed at times, especially on 80m, that we were not being well heard. We found we had to make a lot of repeats. Unfortunately the CWOps CW Open was this same weekend, which certainly did not help the TNQP. The average rate was just shy of 180/hour and we had 3 hours of over 200 QSOs. Kirk had the best hour of 215, which was during the last hour of the contest.Jeff, N5TJ, was at the top of his game and seemed to have ESP. A few times when switching bands, he would call me on frequency before I even sent a dit. Les, VE3NNT ('NNT" is so easy to copy), was one of the loudest station worked. And Laci, OM2VL, did a fine job as usual and thanks for moving us.

One good thing is we worked 285 unique callsigns, more than the 260 last year. These QSO parties are getting more popular each year.

DM2VL(@OM8A

Thanks for the QSO's, great party! Mobiles did FB job as usually.

Thanks for the QSYs to 15m - my best band till 20m not open really.

On 20m i had problems during first few hours to break the USA wall and missed here some QSO's. Fortunately 15m was so long open (last QSO at 22:40Z), but 10m almost dead. I worked here only 2 QSO on the noise level.

First QSO on 40m at 22:33Z.

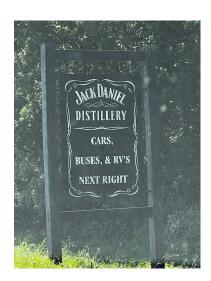

80m was good, but missed here +-10 stations, who don't heard me.

I heard several stations on RTTY, but something happened with setup and TX don't work, only RX.

K8MV

Great contest, fantastic mobiles and rovers. Great ops. Makes it lots of fun. Conditions here in Southern Florida were very noisy.

Never let it be said that Tennessee QSO Party Rover operators don't know how to pick a prime operating location!
