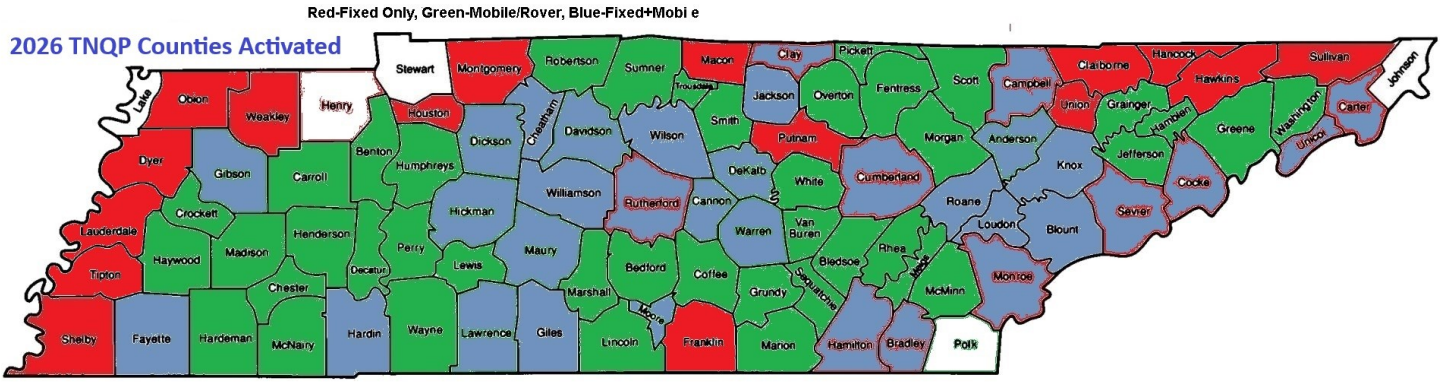
2026 Tennessee QSO Party Results



Another Tennessee QSO Party final! 90 of 95 counties activated this year so we're still getting close to completing a sweep, but not there yet. The challenge is now official for Rovers/Mobiles next year - let's get those remaining 5 in the logs!

Laci, OM2VL, led the pack with an outstanding total of 73 counties (and another new Out-of-State record-133,828) followed by Karen, K2KAR, with 64. Topping our Low Power, Mobile category this year, K4T (opr. Rich, N0HJZ) came all the way from MN to field 1,017 Qs (all of which were phone!) thereby earning one of the cherished TNQP plaques. Also of note was Brandon, W4SFD, who operated in our relatively new ROVER category snagging 683 Qs. Our resident power houses W4NZ mulltiop and AD4EB/K4RO multi-mobile chimed in again with impressive scores. Nice going guys!

Our log count was up from last year, 342 vs 317, but overall QSO count was down to 29,550 from 34,080 (declining sunspots???).

This year's plaque winners are once again in the spotlight. Receiving one of Mark's (K0EJ) hand crafted plaques has to be the highlight of the year for these deserving hams! Congratulations and keep up the good work. Also of note are 3 new TNQP records: SOLPTN 329,804 by K4T(N0HJZ); SORover 248,929 by W4SFD; SOHP OOS 133,828 by OM2VL.

Don't forget to save the date for next year: 1700Z Saturday, September 5 to 0300Z Sunday, September 6 (1:00 PM–11:00 PM EDT). See you then!

2026 Plaque Winners!

USED MY PHONE EARLY LOOKING FOR A PLACE TO CALL CQ. WASN'T WORTH TRYING.

k9him
GREAT FUN! NEW RESIDENT OF TN THIS YEAR, LOOK FORWARD TO MANY MORE YEARS

kr4ee
DIDN'T HEAR TOO MANY TN STATIONS. MOST CONTACTS WERE POTA.

ks5n
PLAYED HIDE-AND-SEEK WITH SCATTERED LIGHTNING, BUT STILL HAD A GOOD
TIME.

n7epd
YOU KNOW A STATE QSO PARTY HAS GOOD ACTIVITY WHEN IT PAYS TO
OPERATE SO2R!

n9pcs
ALL 40M. I HAD A DIPOLE ON THE SOUTH SIDE OF HOUSE FOR 40. A VERTICAL FOR

Bruce Smith, AC4G

Portable Fixed operation from Clay County, Tennessee
Location: Clay County, EM76, North Central Tennessee, 3 miles south of TN/KY state line
Station Details: YAESU FTDX3000, 100 watts, Multi-band dipole antenna, Mixed-mode (CW
and SSB only)
Propagation Conditions: Since my antenna tuned 15m, 40m, and 80m, I was able to make only a few QSOs to the west coast USA and a couple of QSOs to Europe on 15m. Appeared either no one was operating on the higher bands, or my signal was too weak to make many QSOs. For 40m and 80m, it appeared that propagation was similar to years past, but don't believe there were as many operating from the Tennessee counties as in years past.
Overall, was happy with my approximate 420 QSOs after putting in 10 hours at the operating position.

Ron, (WV4P) @ K4TCG

· K4TCG
· EM55 South West TN
· CW, SSB, RTTY
· Mostly compact stacks of halfway decent antennas on short towers.
· Flex 6600 Radios
· PGXL Amps
· 100% Remote operation.
· Conditions were as expected, not great, not bad. Good mixes of short skip which allowed more Q's with the mobiles than normal and LONG skip that sometimes made DX easier to work than domestic. Early Sept, on the cusp of the equinox and right before we start to settle into a different fall / winter propagation pattern can bring a great variety of everything. This year did not disappoint.

Steve Narducci, W9SN

North central TN
CW only Low power only.
Stacked long boom mono band Yagi's for high bands, stacked Yagi's on 40 meters, stacked Tribanders on another tower, 2 element Quad on 80 meters, full size vertical on 160m. All over 100 feet in height. Conditions were down this year and didn't match the past 2-3 years. I was not able to match my Q counts. EU signals were also weaker.

Mark, W4NZ @ K0EJ Just a few random comments about our operation. This was the 5th year for the TVDXA gang to invade K0EJ for the TnQP. Many of the members are also TCG but not all. Though I miss the years of 26 county/460 mile round trips with W4NZ/m and trying to keep up with the AD4EB machine, this has been a reasonable replacement. Ted/NZ does most of the heavy lifting gathering the team, bringing his Flex and K3 for the other stations and is the IT-guy setting up the network. I just provide the venue with the existing station. This year we were blessed to have TCGer Bert/W4KW and Rick/W4IO from the TVDXA join us. Bert did almost all of the 20M SSB work and Rick filled in various fone slots and kept up the 2M simplex link. I hope he returns (and considers joining TCG). We ended up with 3 primarily CW ops and 3 exclusively PH ops. The station was configured initially with one Flex/amp running SO2R/2BSIQ on 15/10. That was painful with almost nothing on 10M but 15 had good signals...just not a lot of them. The 2nd Flex/amp spent the entire contest on 20M. Its 2nd slice was on the 6L6M beam hoping to nab something or move something. No luck in either case. 20M SSB was the highest Q-count for any band/mode in our 5 years of operation. The K3 started barefoot on 40M. We later moved 40M to a Flex/amp and used the K3 on various off-bands and then to open/assess 80M and 160M before moving them to a KW. I think we had more K4TCG Qs this year than ever. Great job by Ron&Co to make those bonus Qs readily available. Our internet was intermittent and we made
little effort to use spots and did almost no self-spotting. Scoreboard posting did not work either.
We did check RBN on occasion to look for AD4EB and the associated mult with limited success. Very few other equipment issues. We had to reboot the laptop running the K3 a few times and had an issue with the 2M FM rig to start but a replacement was quickly put in its place.
2M added 5 mults which was a great bump!
The WX was hot and the bands were noisy. The house window AC unit can normally keep things reasonably comfortable when SO2R but not this contest! Even though we throttled back the amps a bit, the main operating room was VERY WARM. The kitchen and social room were OK. We had a new noise pop up occasionally. Blanketed all bands but generally only lasted a few minutes before disappearing as quickly as it arrived. No clue as to its source. Some interstation interference was observed but easily overcome with frequency selection. It was a bit frustrating to step outside after sunset and see mostly clear skies but 80/160 sounding like the middle of a T-storm! Not quite beverage season (October-March) at the QTH.
Comparing results with previous years:
Year CW PH Mult Score
2026 626 973 302 1.45M
2025 810 655 333 1.46M
2024 762 913 313 1.58M (signed K4TCG)
2023 624 797 305 1.3M (signed K4TCG)
2022 645 648 254 985K
The food was excellent and no one left hungry. The ragchews were entertaining and I believe everyone had adequate BIC time.
Thank You....for a real good time!
73, Mark K0EJ
